Title of the MA Thesis:

I confirm that:

- I am aware of the regulations concerning examinations and plagiarism at ASH Berlin.
- This MA thesis is entirely my own work except where indicated otherwise.
- All sources used in the thesis have been properly referenced. Where the thesis substantially makes use my own work, produced for previous assignments/exams during my studies, this has been clearly stated in the introductory chapter of the thesis and in the reference list.
- I have fully disclosed all uses of Artificial Intelligence (AI tools) in the creation of this work, based on the template provided by ASH Berlin (see next page), and have verified all content for accuracy.
- The thesis is being submitted jointly with another student and the respective contributions of each author have been clearly marked. (Please delete, if not applicable)
- The thesis has not been previously submitted for a degree at ASH Berlin or any other institution of higher education.
- The work presented in the thesis has not been published prior to the thesis submission. (Please delete, if not applicable)
- Part of the work submitted in this thesis has been published elsewhere. (Please delete if not applicable, or provide publication details.)
- No support has been received from a professional agency for the completion of this thesis.
- The electronic copy and printed copy of the submitted thesis are completely identical.

I certify that a copy of the thesis may be made available to the public at the university library. / The reason against the publication in the university library were clarified with the lecturers and declared to the program management. (Please delete whichever of the two sentences is not applicable)

I agree that this thesis, in whole or in part, may be fed into a generative artificial intelligence by thesis examiners for assessment purposes. (Please delete, if not applicable).
