

## I. Abstract

This immersive workshop aims to equip social workers and public health professionals in Berlin with comprehensive knowledge and practical skills to understand and support individuals struggling with Chemsex within the LGBT+ community. Through a dynamic mix of presentations, Q&A sessions, role-plays, and exercises, participants will gain insights into the nuances of this public health issue. The overarching goal is not only to enhance individual learning but also to empower attendees to share their knowledge within their respective organizations, fostering a broader and more informed approach to addressing Chemsex.
